

Your Community Care Project - Program Rules

One message at a time.

Purpose: Your Community Care Project allows you to **nominate yourself or someone else** to receive a free 50-minute massage, made possible through contributions from our community. A complete sponsored massage is funded when \$60 has been contributed. The regular value of the service is \$85, with Your Healing Message contributing the remaining \$25 of value.

1. Sponsorships and Community Pool Contributions

A person may contribute \$60 to fund one complete 50-minute sponsored massage, or contribute any amount toward the Community Pool. Contributions under \$60 are combined until the Community Pool reaches \$60 and another massage can be funded. Contributions over \$60 may fund one or more complete massages, with any remaining amount staying in the Community Pool toward the next massage.

2. Eligible Community Categories

The program is intended for community members in categories such as single parents, first responders, teachers, healthcare workers, caregivers, veterans, and others in our community who may be going through a difficult period. Your Healing Message determines eligibility for the Community Pool based on the program guidelines and information provided.

3. Two Ways to Give

A sponsor may fund a massage for a specific person, or contribute toward massages for people in the Community Pool. Contributions intended for the Community Pool are used for recipients selected by Your Healing Message.

4. Nominate Someone or Nominate Yourself

People may nominate themselves or another person for the Community Pool. Self-nominations are welcomed and are considered in the same way as nominations submitted by someone else. Community Pool members may be represented publicly by a nickname rather than their real name. Real names and contact information are not disclosed to sponsors. A person who nominates themselves is an applicant, not a sponsor, and does not receive a massage unless sufficient Community Pool contributions are available and Your Healing Message selects them. Being nominated or included in the Community Pool does not guarantee selection.

5. Nomination Information

Nominations should include a brief explanation of why the person is being nominated and how they fit the program. Please provide only relevant general information and avoid unnecessary medical diagnoses, financial records, or other highly sensitive personal details. Information provided may be used by Your Healing Message to determine eligibility and select recipients.

6. Recipient Selection

When a complete Community Pool massage has been funded, Your Healing Message chooses the recipient from eligible Community Pool members. A sponsor contributing to the Community Pool does not choose or receive the real identity of the recipient.

7. Activation and Notification

A sponsored massage becomes active when Your Healing Message assigns it to a recipient, records the assignment, and sends notification to the email address and/or phone number provided. The 90-day period begins on that activation date, regardless of when the recipient reads or answers the notification. Your Healing Message is not responsible for incorrect contact information or unanswered notifications.

8. 90-Day Use Period

The selected recipient has 90 days from the activation date to both book and receive the massage. The appointment itself must take place within the 90-day period. Booking during the 90-day period for an appointment scheduled after the expiration date is not permitted. If the massage is not received within 90 days, the sponsored massage expires for that recipient, returns to the program, and Your Healing Message selects another eligible recipient.

9. No Upgrades

A sponsored massage is for one 50-minute session only. It cannot be upgraded to a longer session, including by paying the difference.

10. No Transfers

A sponsored message cannot be sold, transferred, or given by the selected recipient to another person. If unused within the allowed period, it returns to the program for reassignment.

11. Repeat Eligibility

After receiving a sponsored message, a recipient may become eligible for selection again after 3 months. Eligibility does not guarantee another sponsored message.

12. Program Cap

The program allows a maximum of 10 outstanding fully funded sponsored messages at one time. New sponsorships or contributions may be temporarily paused when the cap is reached and reopened as sponsored messages are provided or reassigned.

13. Recipient Privacy

Recipient information and nomination details are handled privately. A recipient's real name, contact information, photograph, personal story, or testimonial will not be publicly shared without permission. Public nicknames should not contain identifying information.

14. Sponsorship Is for a Service

Recipients receive a message, not cash. Sponsorships and Community Pool contributions have no cash value for recipients. Your Healing Message is a private business; these payments should not be represented as tax-deductible charitable donations.

Program flow: Nominate yourself or someone else → Contribution → Specific recipient or Community Pool → Message fully funded → Recipient selected → Sponsored message activated and notification sent → 90 days to book and receive message → Message provided, or reassigned if unused.
